Lost passwords are not uncommon, but staff does not have access to existing passwords. You may, however, request that the system reset your password to a randomly assigned value. This new password will be emailed to the address in the Badger system. Be sure to copy and paste the password you receive into the Password input box as it may be difficult to identify the precise letters and numbers in the password you receive. If you are having difficulty finding your reset password e-mail try looking in your junk e-mail folder sometimes e-mails will get auto routed to this folder.

Replacing a Lost Password-

If you have forgotten your password select Lost Password?

Enter your Badger system email and click OK. An automated e-mail will be sent shortly.
Badger Docs – Lost Passwords

Resetting Your Password -

- It is strongly recommended that after logging in with your temporary password you reset it to something you will remember.

After logging into Badger select Window and then Change Password.

Choose a secure password. Click OK to finalize the change.
